

Activity 3: Illustrated Roman Herb Garden Booklet

For this activity you will need some paper, pencils, crayons, markers, watercolours or magazine clippings, card, and something to attach all the sheets of paper to make a book.

Directions

- Look at each herb picture.
- On a sheet of paper make your own picture of one of the herbs. You can use collage, paint, draw or use any combination of materials you have at home to make your pictures.
- Put the name of the herb and any other information you want on the paper to describe the herb.
- Do this for each herb.
- Create a cover for your book. You can use a blank sheet of paper, card, or a cut up cereal box.
- Decorate your cover any way you like.
- When you have finished, attach all pages together to make a book. You can use staples, tape, or a hole punch and string, ribbons etc.
- The next time you visit Arbeia, bring your book and see if you can find the herbs in our garden. If you want, you can touch and smell the herbs.
